ABOUT ALLI

Alli is a physiotherapist and has specialised in the field of neurological rehabilitation and the management of long-term neurological conditions since 2008. She now provides independent Neurological Physiotherapy to clients with complex disabilities. Alli's clinical experience is in traumatic brain injury and spinal injury and has a specialist interest in postural management. Alli commenced case management in 2020 after working alongside case managers in her physiotherapy role.

Alli has extensive experience in working with multidisciplinary teams and the varied roles within this. She is passionate about using a person-centred approach to achieve the best outcomes for her clients.

Alli has also acquired clinical experience working in intermediate and social care as well as palliative care, which she is able to draw on to support differing needs of clients.

ABOUT ALLI (CONTINUED)

Prior to working in rehabilitation Alli worked for ten years in the media as a Production Assistant, Researcher and Media Relations Consultant and Public Relations Officer. Through this experience Alli has developed excellent communication, negotiation and organisational skills in a fast paced and regularly changing environment.

Alli is committed to maintaining and developing her clinical skills and competencies in her specialist area and regularly undertakes mandatory and volitional training in order to achieve this.

Alli is registered with CSP, CMSUK, BABICM and HCPC.
