## ABOUT NATALIE

---

Natalie began working as a case manager in 2020 after working alongside Abbie Udall Associates in a clinical capacity for several years. Since then, Natalie has worked with highly complex and challenging cases, demonstrating her excellent problem solving and negotiation skills. Natalie develops excellent rapport with her clients, their families and clinical teams to create a cohesive and client centred treatment plan.

## ABOUT NATALIE (CONTINUED)

---

Natalie provides supervision training and support to care and support staff. Natalie has been practicing privately as a Neuro Occupational Therapist since 2018, developing bespoke and comprehensive treatment plans for clients with highly complex needs. Natalie's clinical experience is in traumatic brain injury and has a specialist interest in cognitive rehabilitation.

Prior to working in private practice, Natalie worked for five years in the NHS in the field of neuro-rehabilitation at James Cook University Hospital and Walkergate Park Rehabilitation Centre. Before moving into her clinical speciality Natalie's graduate experience included neuro rehabilitation, trauma and orthopaedics, acute medicine and palliative care.

Prior to qualifying as an Occupational Therapist, Natalie was employed as an Occupational Therapy Assistant and gained clinical experience in areas of neurosciences and community social care.

Natalie has extensive experience in working in multidisciplinary teams and in setting interdisciplinary goals for clients. She is a confident communicator and understands the roles and responsibilities of the clinical team.

Natalie is passionate about continuing to develop her clinical knowledge and competencies and attends conferences, training and specialist events to support life long learning in brain injury. Natalie is registered with BAOT and HCPC.
